

FROM 19th JULY 2021

As a Clinical setting Montagu Physio have decided that, for now, we are going to continue with our Covid 19 procedures.

This means that we will still ask you to wait outside before your appointment, wear a mask at all times when inside the Clinic, have your temperature taken and to clean your hands on arrival.

We will still be wearing full PPE and cleaning and airing treatment rooms between appointments.

We hope you will support our decision which has been made in order to keep everyone as safe as we can.
